

Kotler Chapter 10 MCQ - Multiple choice questions with answers

Principles of Marketing (The University of the West Indies Mona)

Chapter 10 Pricing Products: Understanding and Capturing Customer Value

1) _____ is the amount of money charged for a product or service.

A) Experience curve

B) Demand curve

C) Price

D) Wage

E) Salary

Answer: C

Diff: 1 Page Ref: 290

Skill: Concept

Objective: 10-1

2) Price is the only element in the marketing mix that produces _____.

A) revenue

B) variable costs

C) expenses

D) outfixed costs

E) stability

Answer: A

Diff: 1 Page Ref: 290

Skill: Concept

Objective: 10-1

3) _____ is an important element in the marketing mix. It is the only element that does not represent costs.

A) Current profit maximization

B) Market share leadership

C) Price

D) Product quality leadership

E) The target market

Answer: C

Diff: 1 Page Ref: 290

Skill: Concept

Objective: 10-1

4) Consumer perceptions of the product's value set the _____ for prices.

- A) demand curve
- B) floor
- C) ceiling
- D) variable cost
- E) image

Answer: C

Diff: 2 Page Ref: 291

Skill: Concept

Objective: 10-2

5) Product costs set a(n) _____ to a product's price.

- A) demand curve
- B) floor
- C) ceiling
- D) break-even cost
- E) experience curve

Answer: B

Diff: 2 Page Ref: 291

Skill: Concept

Objective: 10-2

6) Which of the following is a customer-oriented approach to pricing?

- A) value-based pricing
- B) sealed-bid pricing
- C) break-even pricing
- D) target profit pricing
- E) C and D

Answer: A

Diff: 2 Page Ref: 291

Skill: Concept

Objective: 10-2

7) _____ uses buyers' perceptions of what a product is worth, not the seller's cost, as the key to pricing.

- A) Value-based pricing
- B) Value-added pricing
- C) Variable cost
- D) Price elasticity
- E) Product image

Answer: A

Diff: 2 Page Ref: 291

Skill: Concept

Objective: 10-2

8) In _____, price is considered along with the other marketing mix variables before the marketing program is set.

- A) Value-based pricing
- B) Cost-based pricing
- C) Variable costs
- D) Price elasticity
- E) Building the marketing mix

Answer: A

Diff: 2 Page Ref: 291

Skill: Concept

Objective: 10-2

9) Value-based pricing is the reverse process of _____.

- A) variable cost pricing
- B) cost-plus pricing
- C) cost-based pricing
- D) good-value pricing
- E) value-added pricing

Answer: C

Diff: 2 Page Ref: 291

Skill: Concept

Objective: 10-2

10) With _____, price is set to match consumers' perceptions of product value.

- A) variable cost pricing
- B) cost-plus pricing
- C) cost-based pricing
- D) value-based pricing
- E) every day low pricing

Answer: D

Diff: 2 Page Ref: 291

Skill: Concept

Objective: 10-2

11) Measuring _____ can be difficult. A company might conduct surveys or experiments to test this in the different products they offer.

- A) price elasticity
- B) the demand curve
- C) perceived value
- D) break-even pricing
- E) quantity supplied

Answer: C

Diff: 3 Page Ref: 292

AACSB: Communication

Skill: Concept

Objective: 10-2

12) Underpriced products sell very well, but they produce less revenue than they would have if price were raised to the _____ level.

- A) perceived
- B) value-based
- C) variable
- D) demand curve
- E) price-floor

Answer: A

Diff: 2 Page Ref: 292

Skill: Concept

Objective: 10-2

13) If a seller charges _____ than the buyer's perceived value, the company's sales will _____.

- A) more; benefit
- B) more; suffer
- C) less; increase
- D) less; suffer
- E) none of the above

Answer: B

Diff: 2 Page Ref: 292

Skill: Concept

Objective: 10-2

14) Some companies have adopted a _____ strategy, offering just the right combination of quality and good service at a fair price.

- A) Value-based pricing
- B) Good-value pricing
- C) Cost-plus pricing
- D) Low-price image
- E) None of the above

Answer: B

Diff: 1 Page Ref: 293

Skill: Concept

Objective: 10-2

15) Wal-Mart is famous for using what important type of value pricing?

- A) competition-based pricing
- B) everyday low pricing
- C) cost-plus pricing
- D) break-even pricing
- E) penetration pricing

Answer: B

Diff: 2 Page Ref: 293

Skill: Concept

Objective: 10-2

16) _____ involves charging a constant, everyday low price with few or no temporary price discounts.

- A) High-low pricing
- B) Target pricing
- C) Cost-plus pricing
- D) EDLP
- E) Penetration pricing

Answer: D

Diff: 2 Page Ref: 293

Skill: Concept

Objective: 10-2

17) _____ involves attaching features and services to differentiate a company's offers and to support charging higher prices..

- A) Break-even pricing
- B) Target pricing
- C) Value-added pricing
- D) Cost-plus pricing
- E) Pricing-down

Answer: C

Diff: 1 Page Ref: 293

Skill: Concept

Objective: 10-2

18) _____ is a company's power to escape price competition and to justify higher prices and margins.

- A) Variable cost
- B) Pricing power
- C) Target cost
- D) Fixed cost
- E) Unit cost

Answer: B

Diff: 2 Page Ref: 293

Skill: Concept

Objective: 10-2

19) To maintain and increase a company's _____, a firm must retain or build the value of its marketing offer.

- A) variable cost
- B) pricing power
- C) target cost
- D) fixed cost
- E) image

Answer: B

Diff: 3 Page Ref: 293

Skill: Concept

Objective: 10-2

20) When there is price competition, many companies adopt _____ rather than cutting prices to match competitors.

- A) pricing power
- B) value-added strategies

- C) fixed costs
- D) price elasticity
- E) image pricing

Answer: B

Diff: 2 Page Ref: 293

Skill: Concept

Objective: 10-2

21) Ryanair offers free flights to a quarter of its customers and rock-bottom prices to many of its other customers. Ryanair then charges for all extra services, such as baggage handling and in-flight refreshments. Which of the following best describes Ryanair's pricing method?

- A) value-added pricing
- B) low-cost pricing
- C) cost-plus pricing
- D) high-low pricing
- E) image pricing

Answer: B

Diff: 2 Page Ref: 295

Skill: Concept

Objective: 10-2

22) _____ pricing involves setting prices based on the costs for producing, distributing, and selling the product plus a fair rate of return for the company's efforts and risks.

- A) Value-based
- B) Fixed cost
- C) Cost-based
- D) Variable
- E) Skimming

Answer: C

Diff: 1 Page Ref: 295

Skill: Concept

Objective: 10-3

23) Fixed costs _____ as the number of units produced increases.

- A) decrease
- B) increase
- C) divide in half
- D) remain the same
- E) increase at a diminishing rate

Answer: D

Diff: 2 Page Ref: 295

Skill: Concept

Objective: 10-3

24) Costs that do not vary with production or sales level are referred to as _____.

- A) fixed costs
- B) variable costs
- C) target costs
- D) total costs
- E) unit costs

Answer: A

Diff: 1 Page Ref: 295

Skill: Concept

Objective: 10-3

25) Rent, electricity and executive salaries are examples of _____.

- A) fixed costs
- B) variable costs
- C) accumulated costs
- D) total costs
- E) marketing costs

Answer: A

Diff: 2 Page Ref: 295

Skill: Concept

Objective: 10-3

26) Costs that vary directly with the level of production are referred to as _____.

- A) fixed costs
- B) variable costs
- C) target costs
- D) total costs
- E) unit costs

Answer: B

Diff: 1 Page Ref: 296

Skill: Concept

Objective: 10-3

27) _____ are the sum of the _____ and _____ for any given level of production.

- A) Fixed costs; variable; total costs
- B) Fixed costs; total; variable costs
- C) Variable costs; fixed; total costs
- D) Total costs; fixed; variable costs
- E) Break-even costs; fixed; total costs

Answer: D

Diff: 2 Page Ref: 296

Skill: Concept

Objective: 10-3

28) SRAC is the acronym for which concept related to costs at different levels of production?

- A) strategic reasoning and costs
- B) short-run accounting costs
- C) short-run average cost
- D) strategic rights and company
- E) strategic revenues and costs

Answer: C

Diff: 2 Page Ref: 296

Skill: Concept

Objective: 10-3

29) As production workers become better organized and more familiar with equipment, the average cost per unit decreases. This is called the _____.

- A) demand curve
- B) experience curve
- C) short-run average cost curve
- D) long-run average cost curve
- E) marginal utility

Answer: B

Diff: 1 Page Ref: 296

Skill: Concept

Objective: 10-3

30) With a higher volume of product, most companies can expect to _____.

- A) gain economies of scale
- B) become less efficient
- C) see average costs increase
- D) have a straight, horizontal learning curve
- E) find competitors using the experience curve strategically

Answer: A

Diff: 2 Page Ref: 296

Skill: Concept

Objective: 10-3

31) The experience curve reveals that _____.

- A) repetition in production lowers costs
- B) repetition in production enhances efficiency
- C) the average cost drops with accumulated production experience
- D) A, B, and C
- E) none of the above

Answer: D

Diff: 3 Page Ref: 296

Skill: Concept

Objective: 10-3

32) When a downward-sloping experience curve exists, a company should usually _____ the selling price of that product in order to bring in higher revenues.

- A) increase
- B) greatly increase
- C) decrease
- D) not alter
- E) none of the above

Answer: C

Diff: 3 Page Ref: 297

Skill: Concept

Objective: 10-3

33) Which of the following is a risk a company takes when building a strategy around the experience curve?

- A) Competitors will likely not be able to meet the company's price cuts.
- B) Existing technologies are likely to become more expensive as the company expands.
- C) The method does not take competitors' prices into account.
- D) The method may cause consumers to become frustrated with changing prices.
- E) Aggressive pricing may give the product a cheap image, causing customers to lose interest.

Answer: E

Diff: 2 Page Ref: 297

Skill: Concept

Objective: 10-3

34) A company building its pricing strategy around the experience curve would be likely to _____.

- A) price its products low
- B) price its products high
- C) engage in break-even pricing
- D) all of the above
- E) none of the above

Answer: A

Diff: 3 Page Ref: 297

Skill: Concept

Objective: 10-3

35) The company designs what it considers to be a good product, totals the expenses of making the product, and sets a price that adds a standard mark-up to the cost of the product. This approach to pricing is called _____.

- A) value-based pricing
- B) fixed cost pricing
- C) cost-plus pricing
- D) variable pricing
- E) skimming pricing

Answer: C

Diff: 1 Page Ref: 297

Skill: Concept

Objective: 10-3

36) Lawyers, accountants, and other professionals typically price by adding a standard markup for profit. This is known as _____.

- A) variable costs
- B) cost-plus pricing
- C) value-based pricing
- D) break-even price
- E) penetration pricing

Answer: B

Diff: 2 Page Ref: 297

Skill : Concept

Objective: 10-3

37) The simplest pricing method is _____.

- A) value-based pricing
- B) going-rate and sealed-bid pricing
- C) cost-plus pricing
- D) break-even analysis
- E) target profit pricing

Answer: C

Diff: 2 Page Ref: 297

Skill: Concept

Objective: 10-3

38) Which of the following is a reason why markup pricing is NOT practical?

- A) Sellers earn a fair return on their investment.
- B) By tying the price to cost, sellers simplify pricing.
- C) When all firms in the industry use this pricing method, prices tend to be similar.
- D) This method ignores demand.
- E) With a standard markup, consumers know when they are being overcharged.

Answer: D

Diff: 3 Page Ref: 298

Skill: Concept

Objective: 10-3

39) One reason _____ remains popular is that sellers are more certain about costs than about demand.

- A) markup pricing
- B) variable pricing
- C) inelasticity pricing
- D) elasticity pricing
- E) penetration pricing

Answer: A

Diff: 2 Page Ref: 298

Skill: Concept

Objective: 10-3

40) Price competition is minimized when all firms in an industry use which pricing method?

- A) variable pricing
- B) markup pricing
- C) elasticity pricing
- D) value-added pricing
- E) value-based pricing

Answer: B

Diff: 3 Page Ref: 298

Skill: Concept

Objective: 10-3

41) Many people feel that _____ pricing is fairer to both buyers and sellers. Sellers earn a fair return on their investment but do not take advantage of buyers when buyers' demand becomes great.

- A) variable
- B) markup
- C) elasticity
- D) inelasticity
- E) penetration

Answer: B

Diff: 2 Page Ref: 298

AACSB: Ethical Reasoning

Skill: Concept

Objective: 10-3

42) Which of the following is a cost-based approach to pricing?

- A) value-based pricing
- B) going-rate pricing
- C) target profit pricing
- D) good value pricing
- E) A and C

Answer: C

Diff: 2 Page Ref: 298

Skill: Concept

Objective: 10-3

43) Break-even pricing, or a variation called _____, is when the firm tries to determine the price at which it will break even or make the profit it is seeking.

- A) competition-based pricing
- B) target profit pricing
- C) fixed cost pricing
- D) value-based pricing
- E) customer-based pricing

Answer: B

Diff: 1 Page Ref: 298

Skill: Concept

Objective: 10-3

44) Target profit pricing uses the concept of a _____, which shows the total cost and total revenue expected at different sales volume levels.

- A) value-based chart
- B) break-even chart
- C) competition-based chart
- D) demand-curve
- E) unit cost

Answer: B

Diff: 2 Page Ref: 298

Skill: Concept

Objective: 10-3

45) The break-even volume is the point at which _____.

- A) the total revenue and total costs lines intersect
- B) demand equals supply
- C) the production of one more unit will not increase profit
- D) the company can pay all of its long-term debt
- E) a firm's profit goal is reached

Answer: A

Diff: 3 Page Ref: 298

Skill: Concept

Objective: 10-3

46) _____ pricing works only if that price actually brings in the expected level of sales.

- A) Elasticity
- B) Markup
- C) Variable
- D) Inelasticity
- E) Target profit

Answer: E

Diff: 3 Page Ref: 298

Skill: Concept

Objective: 10-3

- 47) Which of the following statements about break-even analysis is true?
- A) It is used to determine how much production experience a company must have to achieve desired efficiencies.
 - B) It is a technique used to calculate fixed costs.
 - C) It determines the amount of retained earnings a company will have during an accounting period.
 - D) It is a technique marketers use to examine the relationship between supply and demand.
 - E) It is calculated using variable costs, the unit price, and fixed costs.

Answer: E

Diff: 3 Page Ref: 298

Skill: Concept

Objective: 10-3

- 48) As a manufacturer increases price, the _____ drops.

- A) target
- B) break-even volume
- C) cost-plus pricing
- D) total cost
- E) sales

Answer: B

Diff: 3 Page Ref: 299

Skill: Concept

Objective: 10-3

- 49) Which of the following is an external factor that affects pricing decisions?

- A) the salaries of production management
- B) competition
- C) the salaries of finance management
- D) funds expensed to clean production equipment
- E) A, B, and C

Answer: B

Diff: 1 Page Ref: 299

Skill: Concept

Objective: 10-4

- 50) _____ that influence pricing decisions include the nature of the market and demand and competitors' prices.

- A) Internal factors
- B) Elasticity factors
- C) External factors
- D) Target factors
- E) Domestic factors

Answer: C

Diff: 2 Page Ref: 299

Skill: Concept

Objective: 10-4

51) Companies may set prices low for which of the following reasons EXCEPT _____.

- A) to prevent competition from entering the market
- B) to stabilize the market
- C) to create excitement for a product
- D) to prepare for an easy exit from a market
- E) to match a competitor

Answer: D

Diff: 2 Page Ref: 299

Skill: Concept

Objective: 10-4

52) In order to form a consistent and effective integrated marketing program, price decisions should be coordinated with each of the following EXCEPT _____.

- A) product design
- B) distribution
- C) competitors' prices
- D) promotion decisions
- E) marketing objectives

Answer: C

Diff: 2 Page Ref: 299

Skill: Concept

Objective: 10-4

53) With target costing, marketers will first _____ and then _____.

- A) build the marketing mix; identify the target market
- B) identify the target market; build the marketing mix
- C) design the product; determine its cost
- D) use skimming pricing; penetrating pricing
- E) determine a selling price; target costs to ensure that the price is met

Answer: E

Diff: 2 Page Ref: 300

Skill: Concept

Objective: 10-4

54) Price setting is usually determined by _____ in small companies.

- A) top management
- B) marketing departments
- C) sales departments
- D) divisional managers
- E) cross-functional teams

Answer: A

Diff: 2 Page Ref: 300

Skill: Concept

Objective: 10-4

55) Price setting is usually determined by _____ in large companies.

- A) top management
- B) divisional managers
- C) product line managers
- D) pricing departments
- E) both B and C

Answer: E

Diff: 2 Page Ref: 300

Skill: Concept

Objective: 10-4

56) In industrial markets, _____ typically has the final say in setting the pricing objectives and policies of a company.

- A) the sales manager
- B) top management
- C) the production manager
- D) the finance manager
- E) the pricing department

Answer: B

Diff: 2 Page Ref: 300

Skill: Concept

Objective: 10-4

57) In industries in which pricing is a key factor, _____ often set the best prices or help others in setting them.

- A) sales managers
- B) top managers
- C) production managers
- D) finance managers
- E) pricing departments

Answer: E

Diff: 2 Page Ref: 300

Skill: Concept

Objective: 10-4

58) Under _____, the market consists of many buyers and sellers trading in a uniform commodity such as wheat, copper, or financial securities.

- A) pure competition
- B) monopolistic competition
- C) oligopolistic competition
- D) a pure monopoly
- E) anti-trust agreements

Answer: A

Diff: 2 Page Ref: 302

Skill: Concept

Objective: 10-4

59) Under _____, the market consists of many buyers and sellers who trade over a range of prices rather than a single market price.

- A) pure competition
- B) monopolistic competition
- C) oligopolistic competition
- D) pure monopoly
- E) socialism

Answer: B

Diff: 2 Page Ref: 302

Skill: Concept

Objective: 10-4

60) Under _____, the market consists of a few sellers who are highly sensitive to each other's pricing and marketing strategies.

- A) pure competition
- B) monopolistic competition
- C) oligopolistic competition
- D) pure monopoly
- E) capitalism

Answer: C

Diff: 2 Page Ref: 302

Skill: Concept

Objective: 10-4

61) Nonregulated monopolies are free to price at what the market will bear. However, they do not always charge the full price for a number of reasons. What is NOT one of those reasons?

- A) They don't want to attract competition.
- B) They want to penetrate the market faster with a low price.
- C) They have a fear of government regulation.
- D) They want to encourage government regulations.
- E) They want to please a large group of consumers.

Answer: D

Diff: 3 Page Ref: 303

Skill: Concept

Objective: 10-4

62) The relationship between the price charged and the resulting demand level can be shown as the _____.

- A) demand curve
- B) variable cost
- C) target cost
- D) break-even pricing
- E) experience curve

Answer: A

Diff: 1 Page Ref: 303

Skill: Concept

Objective: 10-4

63) Consumers usually perceive higher-priced products as _____.

- A) out of reach for most people
- B) having high quality
- C) having high profit margins
- D) having cost-based prices
- E) being in the introductory stage of the product life cycle

Answer: B

Diff: 3 Page Ref: 303

Skill: Concept

Objective: 10-4

64) Why do marketers consider prestige goods to be an exception to the typical demand curve?

- A) The demand curve for prestige goods slopes downward and to the right.
- B) Increasing the price of prestige goods can make them seem more desirable.
- C) Demand for prestige goods often is greater than supply.
- D) Prestige products such as diamonds, sapphires, and emeralds are nonrenewable resources.
- E) Customers are more aware of any price changes to prestige goods.

Answer: B

Diff: 3 Page Ref: 303

Skill: Concept

Objective: 10-4

65) Which of the following is true about the demand curve?

- A) It is used to illustrate the effect of price on the quantity supplied.
- B) It is always graphically depicted by a straight line.
- C) It shows the quantity of product customers will buy in a market during a period of time even if other factors change.
- D) It usually slopes upward and to the right.
- E) It shows the relationship between product demand and product price.

Answer: E

Diff: 3 Page Ref: 303

Skill: Concept

Objective: 10-4

66) When Gibson Guitar Corporation, long known for its high quality instruments, lowered its prices to compete more effectively with Japanese rivals, the company sold fewer guitars. Which of the following best explains this?

- A) The Gibson guitars were not as well made as the Japanese guitars.
- B) The market was already flooded with guitars.
- C) The sound of the Gibson guitar was not as good as the Japanese guitars.
- D) Customers did not distinguish the superiority of the Gibson guitar when it was at a lower price.
- E) Customers had come to expect a higher price for a Gibson guitar.

Answer: D

Diff: 3 Page Ref: 303

Skill: Concept

Objective: 10-4

67) _____ describes how responsive demand will be to a change in price.

- A) Price elasticity
- B) Break-even pricing
- C) The demand curve
- D) Target costing
- E) Supply

Answer: A

Diff: 1 Page Ref: 304

Skill: Concept

Objective: 10-4

68) If demand hardly changes with a small change in price, we say the demand is _____.

- A) variable
- B) inelastic
- C) value-based
- D) at break-even pricing
- E) market penetrating

Answer: B

Diff: 2 Page Ref: 304

Skill: Concept

Objective: 10-4

69) If demand changes greatly with a small change in price, we say the demand is _____.

- A) variable
- B) inelastic
- C) value-based
- D) elastic
- E) fixed

Answer: D

Diff: 1 Page Ref: 304

Skill: Concept

Objective: 10-4

70) Price elasticity of demand is _____ divided by _____.

- A) percent change in quantity demanded; percent change in price
- B) demand; price
- C) percent change in price; percent change in quantity demanded
- D) the going price; the asking price
- E) none of the above

Answer: A

Diff: 2 Page Ref: 304

Skill: Concept

Objective: 10-4

71) Buyers are less price sensitive in all of the following situations EXCEPT _____.

- A) when the product they are buying is unique
- B) when the product they are buying is in high demand
- C) when substitute products are hard to find
- D) when the total expenditure for a product is high relative to their income
- E) when the product is a specialty product

Answer: D

Diff: 2 Page Ref: 304

Skill: Concept

Objective: 10-4

72) The less _____ the demand, the _____ it pays for the seller to raise the price.

- A) determined; less
- B) elastic; more
- C) elastic; less
- D) constant; more
- E) none of the above

Answer: B

Diff: 3 Page Ref: 304

Skill: Concept

Objective: 10-4

73) Each of the following economic factors can have a strong impact on a firm's pricing strategy EXCEPT _____.

- A) an economic boom
- B) the reseller's reaction to price changes
- C) an economic recession
- D) inflation
- E) interest rates

Answer: B

Diff: 2 Page Ref: 305

Skill: Concept

Objective: 10-4

74) A company should set prices that will allow _____ to receive a fair profit.

- A) resellers
- B) producers
- C) consumers
- D) the elderly
- E) competitors

Answer: A

Diff: 2 Page Ref: 305

Skill: Concept

Objective: 10-4

75) When companies set prices, the government and social concerns are two _____ affecting pricing decisions.

- A) external factors
- B) internal factors
- C) economic conditions
- D) demand curves
- E) temporary influences

Answer: A

Diff: 1 Page Ref: 305

Skill: Concept

Objective: 10-4

76) Amos Zook, an Amish farmer, sells organically grown produce. Often he will trade some of his produce for dairy products produced by other Amish farmers. The sum of the values that others exchange is called a _____.

- A) price
- B) cost-plus price
- C) dynamic price
- D) common value price
- E) penetration price

Answer: A

Diff: 1 Page Ref: 290

AACSB: Reflective Thinking

Skill: Application

Objective: 10-1

77) Trader Joe's offers an assortment of exclusive gourmet products at impossibly low prices. These prices are not limited-time offers or special discounts. Instead, they reflect Trader Joe's _____ strategy.

- A) everyday low pricing
- B) cost-plus pricing
- C) dynamic pricing
- D) value-based pricing
- E) cost-based pricing

Answer: A

Diff: 2 Page Ref: 293

AACSB: Reflective Thinking

Skill: Application

Objective: 10-2

78) Jimmy's Hardware, an independent local retailer, is losing business to Wal-Mart. This is most likely because he cannot match Wal-Mart's pricing strategy of _____.

- A) EDLP
- B) EFGF
- C) fixed prices
- D) negotiated pricing
- E) skimming pricing

Answer: A

Diff: 2 Page Ref: 293

AACSB: Analytic Skills

Skill: Application

Objective: 10-2

79) When McDonald's and other fast food restaurants offer "value menu" items at surprisingly low prices, they are using _____.

- A) break-even pricing
- B) target profit pricing
- C) value pricing
- D) cost-plus pricing
- E) bundling

Answer: C

- A) elasticity is $-1/2$
- B) demand is inelastic
- C) demand is elastic
- D) buyers are not price sensitive
- E) A and B

Answer: E

Diff: 3 Page Ref: 304

AACSB: Analytic Skills

Skill: Application

Objective: 10-4

Refer to the scenario below to answer the following questions.

Alden Manufacturing produces small kitchen appliances♦blenders, hand mixers, and electric skillets♦under the brand name First Generation. Alden attempts to target newlyweds and first-time home buyers with this brand.

In considering that most young households have limited financial resources, Alden has attempted to engage in target costing. "In doing this," Milt Alden stated, "we have better control over keeping price right in line with customers."

Alden manufactures a three-speed blender, its top seller, and a five-speed blender. The hand mixers are manufactured in two styles♦a small hand-held mixer with two rotating beaters and a similar style that comes with an optional stand and attached mixing bowl. Alden's temperature-controlled skillets are manufactured in one style with three color options.

"Our product offerings are narrower," Milt Alden added, "but our line workers know each product like the back of their hands. This allows us to produce superior products while holding our prices low."

98) Milt Alden says that his line workers "know each product like the back of their hands," and that this knowledge helps the company keep its prices low. This indicates that Alden Manufacturing most likely uses which of the following strategies?

- A) cost-plus pricing
- B) value-based pricing
- C) the experience curve
- D) cost-based pricing
- E) target profit pricing

Answer: C

Diff: 2 Page Ref: 296

Skill: Application

Objective: 10-2

99) Milt Alden uses a target costing strategy. Which of the following is he most likely to do in executing this strategy?

- A) base his price on competitors' prices
- B) use everyday low pricing
- C) use a break-even chart to determine pricing
- D) start with customer-value considerations
- E) start by determining the costs of a new product

Answer: D

Diff: 2 Page Ref: 300

125) Consumers will base their judgments of a product's value on the prices that competitors charge for similar products.

Answer: TRUE

Diff: 2 Page Ref: 304

Skill: Concept

Objective: 10-4

126) Pricing and price competition account for the number-one problem facing many marketing executives. What are some of the frequent problems that companies encounter?

Answer: The pricing environment changes at a fast pace, and value-seeking customers have put increased pricing pressure on many companies. However, companies are often too quick to reduce prices in order to get a sale rather than convincing buyers that their products are worth a higher price. A company's pricing, in addition, is often too cost-oriented rather than customer-value oriented. Companies have prices that are not revised often enough to reflect market changes. Another common problem is pricing that does not take the rest of the marketing mix into account.

Diff: 2 Page Ref: 289

AACSB: Analytic Skills

Skill: Application

Objective: 10-1

127) Discuss the importance of consumer perceptions of value and costs to setting prices.

Answer: Customer perceptions of value set the upper limit for prices, and costs set the lower limit. However, in setting prices within these limits the company must then consider other internal and external factors. Internal factors affecting pricing include the company's overall marketing strategy, objectives, and marketing mix, as well as other organizational considerations. External factors include the nature of the market and demand, competitors' strategies and prices, and other environmental factors.

Diff: 1 Page Ref: 291

AACSB: Analytic Skills

Skill: Application

Objective: 10-2

128) Explain how break-even analysis can be used for target profit pricing.

Answer: The firm determines the price at which it will break even. The firm can also add the target profit to the fixed costs and then determine the new, "break-even point," which now includes the target profit. Pricing decisions can be made by examining where the total revenue and total cost curves intersect on a break-even chart at different price points and sales volume.

Diff: 2 Page Ref: 298

AACSB: Analytic Skills

Skill: Application

Objective: 10-3

129) Identify and define the internal factors affecting a firm's pricing decisions.

Answer: The pricing strategy is largely determined by the company's target market and positioning objectives. Pricing decisions affect and are affected by product design, distribution, and promotion decisions. Costs set the floor for the company's price, which must cover all the costs of making and selling the product, plus a fair rate of return. In order to coordinate pricing goals and decisions, management must decide who within the organization is responsible for setting price.

Diff: 2 Page Ref: 299

AACSB: Analytic Skills

Skill: Application

Objective: 10-4

130) Compare pure competition with oligopolistic competition.

Answer: Under pure competition, the market consists of many buyers and sellers trading in a uniform commodity. No single buyer or seller has much effect on the going market price. Under oligopolistic competition, the market consists of few sellers who are highly sensitive to each other's pricing and marketing strategies. The product can be uniform or nonuniform. There are few sellers because it is difficult for new sellers to enter the market. Each seller is alert to competitors' strategies and moves.

Diff: 3 Page Ref: 302-303

AACSB: Analytic Skills

Skill: Application

Objective: 10-4

131) Compare oligopolistic competition with a pure monopoly.

Answer: Under oligopolistic competition, the market consists of a few sellers who are highly sensitive to each other's pricing and marketing strategies. There are few sellers because it is difficult for new sellers to enter the market. Under a pure monopoly, the market consists of one seller. Pricing is handled differently in each case. The seller may be a government monopoly, a private nonregulated monopoly, or a private regulated monopoly.

Diff: 3 Page Ref: 302-303

AACSB: Analytic Skills

Skill: Application

Objective: 10-4

132) Describe what a demand curve is and explain how it helps businesses.

Answer: It estimates consumer demand at different prices. In a monopoly, the demand curve shows the total market demand resulting from different prices. If the company faces competition, its demand at different prices will depend on whether competitors' prices stay constant or change with the company's own prices.

Diff: 2 Page Ref: 303

AACSB: Analytic Skills

Skill: Application

Objective: 10-4

133) What does price elasticity reveal about a product?

Answer: Price elasticity is a measure of the sensitivity of demand to changes in price. If demand hardly changes with a small change in price, we say the demand is inelastic. If demand changes greatly, we say the demand is elastic.

Diff: 1 Page Ref: 304

AACSB: Analytic Skills

Skill: Application

Objective: 10-4

134) The company must consider the impact its prices will have on resellers. Identify three ways the company can help resellers.

Answer: The company, first of all, should set prices that give resellers a fair profit. The company should also encourage their support. Finally, the company should help resellers to sell the product effectively.

Diff: 1 Page Ref: 305

AACSB: Analytic Skills

Skill: Application

Objective: 10-4

135) When setting prices, the company must consider its external environment. Describe four parts of the external environment and how they affect businesses.

Answer: Economic conditions affect both the costs of producing a product and consumer perceptions of the product's price and value. The company should encourage and support resellers and help them to sell the product effectively. The government, in the form of local, state, and federal laws, is another important influence on pricing decisions. Social concerns impact pricing, especially when a company's short-term sales, market share, and profit goals may have to be tempered by broader societal considerations.

Diff: 1 Page Ref: 305

AACSB: Analytic Skills
